You Can Do It (If You Try)

Poverty is bad.
It makes me so sad.
We need to educate the kids and stuff.
Ladies, mmm, the ladies need respect.
Coz the ladies are cool, and things like that.
Get the kids to school. They gotta learn sometime.
Coz children is dyin' and I be cryin'

Chorus

***You can do it if you try.
It begins with you and I
It never rains, it only pours.
You can open the locked doors.***

When they are pregnant, ladies need help.
They gonna die unless you improve maternal health Yeah.
You know what I'm sayin'
HIV and Aids is . . . nasty.
Really, really, really bad.
That makes me sad too.
The environment's important;
It's our friend.
Give it a hug, don't sweep it under the rug.
It's an important issue.
A global partnership should be established
To ensure development.
Please.

Chorus

You can do it if you try.
It begins with you and I
And all you fat cats in your ivory towers
Misusing all your powers.

Instrumental solo
