Equal

Chorus

*Everybody should be equal
And our world should all be free
No more wars and no diseases
Everyone's the same as me*

Stop!

Think about world poverty
Think about the poor
They can't go to school like us
Really that's for sure
Lend a hand

and they will learn to count and read and write
Learning is a life skill
And that's got to be right.

Chorus

Every woman every man
Everyone the same
Equality means we're all alike in everything but name
A little child in Africa is dying every day
You can stop this happening
You can find a way.

Chorus

Stop!

Malawi, Kenya and Peru
Lots of bad disease
Everywhere you look around
Everybody sees
Silly segregation
Is it really fair?
Women don't get better jobs
Do we really care?

Chorus

If you fall you get a plaster
If it's bad it's not disaster
Doctors can be hard to find
For those with aids we must be kind.

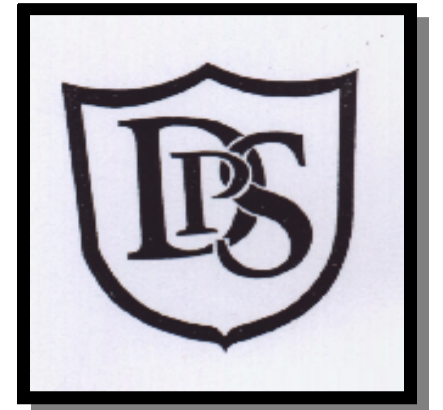

Chorus

Stop!

When you drive your car to work
You're killing planet earth
So you need to think of people
What the earth is worth
Pollution will kill the earth one day
Unless we stop the spread
If we don't stop the melting poles
We all will
Soon be dead.

Chorus
