

Oban High School Argyll & Bute

EthCo Song

Chorus

*It could easily happen to you,
So put yourself in my shoes,
And let them finally see,
Oh just how it feels to be me.*

Beggin' for money, can't even afford food,
All my life I've been told I'm no good.
Cold and alone, the street is my home,
Death and disease is what is waiting for me.

Chorus

We take school for granted,
When others can't afford it.
Simple things like 1, 2, 3,
Don't even know their ABC's
Is this the life you would want for your child?

Chorus

HIV, a sentence for life,
No money for a Doctor.
Help them shed this awful disease,
You could make a difference, just help us please.

Chorus

You could prevent it, so help the helpless,
Never forget, you're never too small.
You can make a difference, by just standing tall,
So have a heart and we could be part of a better world full of joy.

Chorus x 2

Oh just how it feels to be me.
